

5 years  
ago a beautiful  
world was created, then  
world of Twinning  
This world is always full of laughter  
Fun and happy students!  
We, that have managed  
to enter this wonderful  
world,  
wish Twinning  
Happy Birthday!

# “The Story of eTwinning”

Junior High School of Skiathos

There once was a little star in the sky, called Twinkly. Although it wasn't the brightest star of all, everyone loved it because it was cheerful and kind-hearted and it always kept company to every star that felt lonely. Twinkly was also the best storyteller in the whole sky. Its stories enchanted all the stars and made them brighter.

Unfortunately, as our little hero was narrating one of its most beautiful tales to the other stars, it fell from the sky- as it happens to every star- before it had finished its story. That night there was no star shining in the sky. Everyone was so sad and they all missed Twinkly a lot.

At that very moment, something magical happened on Earth. A little boy called Edward, was wandering around the streets of a big city, alone, sad and without any friends...His parents' job made them move places every year and now he was in a new, unfriendly city for one more time..

“I will never be able to have a true friend” said Edwards with tearful eyes. Immediately, a strong lightning flashed and when Edwards opened his eyes he saw a little fallen star on the street in front of him.

“Hello my dear Edward. I am here to make your wish come true!”

“I don't want to be alone anymore. I want to have all my friends back. They are so far away and I miss them so much!” said Edward full of despair.

“Your wish will come true” replied Twinkly and broke into thousands of tiny pieces that travelled to distant places to find Edward's friends.

On that day, eTwinning was born. It was five years ago, as far as I can remember. From that day on, all the children have been able to find their friends even those of them who lived in far away places. And even those children who feel lonely have the chance to meet new friends through eTwinning.

When Twinkly's mission on earth was over, the “Star Fairy” took it back up in the sky. Twinkly was with his friends again and it had even more exciting stories to tell them. The stars were shining again in the sky brighter than ever. Edward and his friends never felt lonely again.

And if you ever feel lonely, join eTwinning, Twinkly and Edward and all of their friends will be there, waiting to keep you good company.

The End...
