

1 What is eTwinning?

-  eTwinning is the Community for Schools in Europe
-  European school cooperation action since 2005
-  Safe digital environment for collaborative projects
-  Teachers and students from different countries work together
-  Promotes cooperation, creativity, digital skills, intercultural understanding and European identity

2 eTwinning in Numbers

A European community with strong Greek participation

EUROPE

-  45 countries
-  1,300,000+ teachers in total
-  330,000+ active teachers
-  300,000+ schools in total
-  200,000+ active schools
-  160,000+ projects in total

GREECE

-  58,000+ teachers in total
-  28,000+ active teachers (15%)
-  15,000+ schools (all)
-  26,000+ projects in total (16,5%)

A vibrant community that connects schools, empowers educators and inspires students across Europe!

3 Is eTwinning Successful in Greece?

The Greek success model

eTwinning in Greece succeeded because it did not operate only as a platform, but as an organized ecosystem.

Key factors

- ✓ Systematic pedagogical and technical support
- ✓ Large-scale professional development for teachers
- ✓ Active network of eTwinning Ambassadors
- ✓ Connection with innovation, STEM, AI and European values
- ✓ Recognition and reward of quality

4 Is eTwinning Successful in Greece? It offers...

SUPPORT

- Pedagogical
- Technical

PROFESSIONAL DEVELOPMENT

- MOOCs, webinars
- Open courses
- PDW, Contact Seminars

RECOGNITION & REWARDS

- Labels
- Awards

5 National Support Organization (NSO) of eTwinning

- Operates under the responsibility of CTI "Diofantus", in cooperation with the Ministry of Education.
- Provides pedagogical, technical and organizational support to teachers.
- Supports registrations, ESEP, TwinSpace, projects, Quality Labels and awards.
- Organizes training, information activities and the sharing of good practices.
- Coordinates the network of eTwinning Ambassadors.
- Turns a European action into a living and active national community.

6 A Community with Continuous Support From registration to a quality project

-  Support in using ESEP and TwinSpace
-  Help with registrations, projects and Quality Labels
-  Recognition and rewards through Quality Labels and awards
-  Pedagogical guidance for designing collaborative projects
-  Technical support through an organised helpdesk
-  Continuous communication with teachers and schools

7 Strategic Goals of the Hellenic NSO

- ★ Improve the quality of eTwinning projects
- 👥 Increase teacher participation
- 👤 Support teachers
- 🏛️ Support Higher Education Institutions
- 🧠 Strengthen teachers' digital skills, especially in AI

8 eTwinning Ambassadors

- ✓ Are experienced volunteer teachers with active participation in the action
- ✓ Support teachers in their areas of responsibility
- ✓ Organize webinars, face-to-face events and workshops
- ✓ Guide teachers in designing quality collaborative projects
- ✓ Share good practices and strengthen the community

9 Webinars & Training Activities by Ambassadors

Large-scale, decentralized and targeted support

Activity 2022-2026:

-  554 online training sessions
-  35,777 teacher participations

Topics: ESEP, TwinSpace, project quality, eTwinning Schools, digital tools, Skills Labs, Initial Teacher Education, etc.

♥ A combination of information, guidance and motivation!

10 Professional Development for Teachers The community grows when teachers are empowered

-  Webinars and Ambassador events
-  Long-duration open online courses
-  MOOCs for broad and flexible access
-  Pedagogical guides
-  PDW and Contact Seminars at European level
-  Special topics: STEM, AI, Initial Teacher Education

11 Open Online Courses

Structured, long-duration training

- ✓ 18 online courses, 200 hours each
- ✓ Annual cycles from October to April
- ✓ Topics: ICT, Web 2.0, multimedia, mobile devices, educational robotics - STEM, AI, interactive learning systems, etc.
- ✓ Free or open source tools and permanently available training material
