Activity 1

KAHOOT! MOBILE APP

Play, create, host quizzes, even on the go

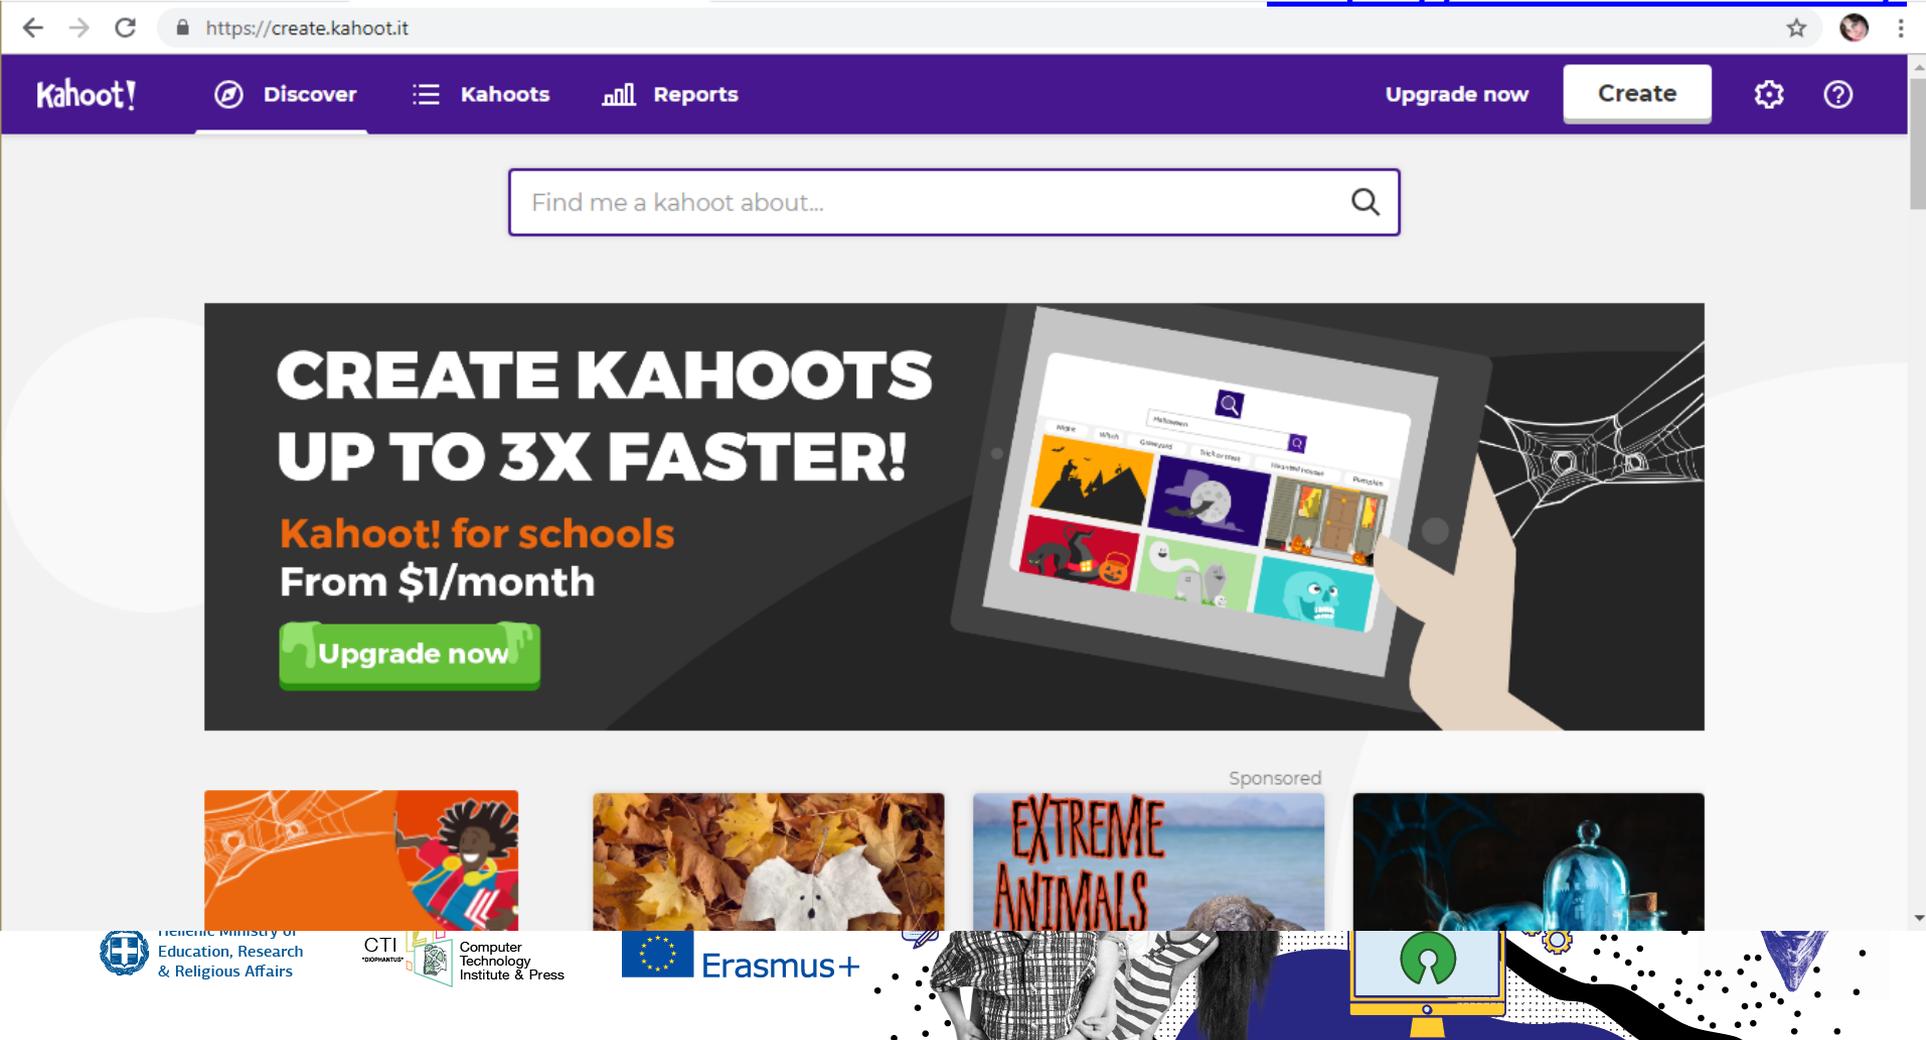

Calling all students, teachers, office heroes, trivia fans and lifelong learners! Whether you feel creative, want to learn something new or are up for some fun and competition – get Kahoot!’ing anywhere, anytime!

Download our app for free:

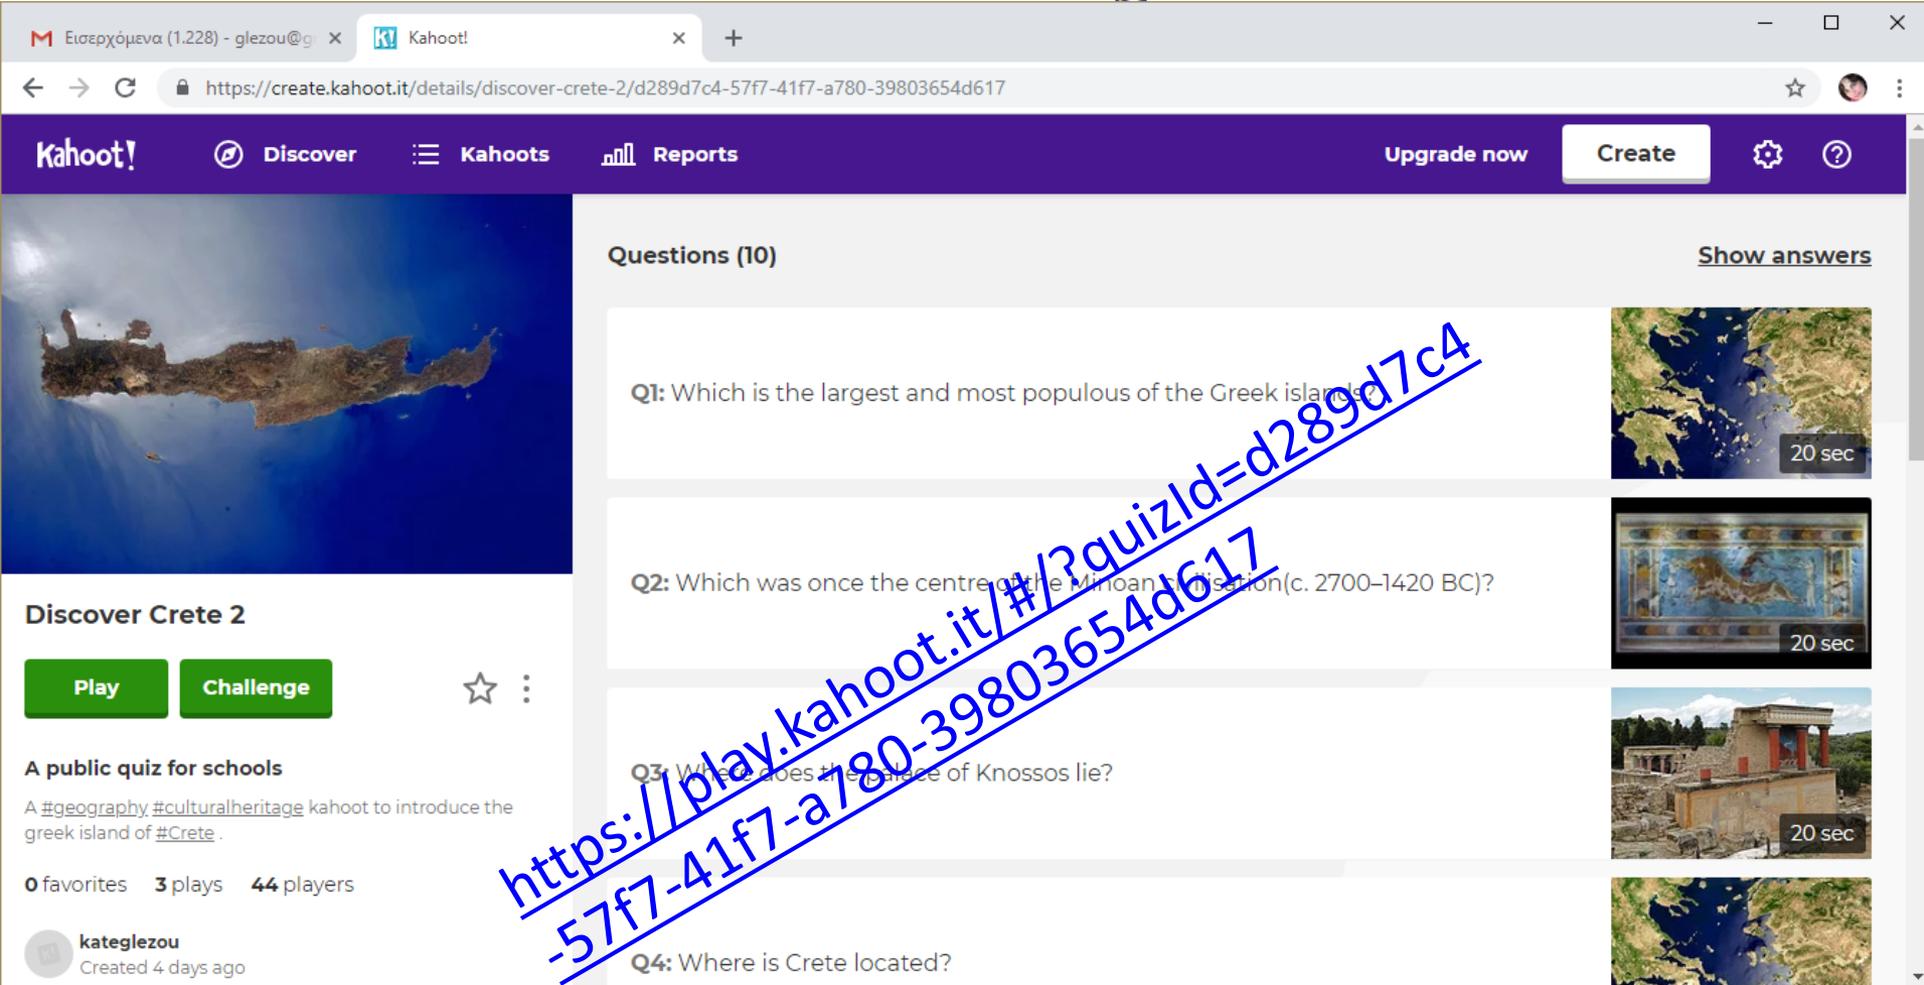

Kahoot!

The screenshot shows the Kahoot! website interface. At the top, there is a navigation bar with the Kahoot! logo, 'Discover', 'Kahoots', and 'Reports' menus. On the right side of the navigation bar, there are buttons for 'Upgrade now' and 'Create', along with settings and help icons. Below the navigation bar is a search bar with the placeholder text 'Find me a kahoot about...'. The main content area features a large promotional banner for Kahoot! for schools, stating 'CREATE KAHOOT'S UP TO 3X FASTER!' and 'Kahoot! for schools From \$1/month'. A green 'Upgrade now' button is positioned at the bottom of the banner. To the right of the text is an illustration of a hand holding a tablet displaying a Kahoot! quiz interface with various Halloween-themed questions. Below the main banner, there are several sponsored content tiles, including one for 'EXTREME ANIMALS' and another for a science experiment. At the bottom of the page, there are logos for the Swiss Federal Office of Education, Research & Religious Affairs, CTI (Computer Technology Institute & Press), and Erasmus+.

The screenshot shows a web browser window displaying a Kahoot! quiz. The browser's address bar shows the URL: <https://create.kahoot.it/details/discover-crete-2/d289d7c4-57f7-41f7-a780-39803654d617>. The Kahoot! interface includes a navigation bar with 'Discover', 'Kahoots', and 'Reports' tabs, and buttons for 'Upgrade now' and 'Create'. The main content area is titled 'Discover Crete 2' and features a 'Play' button and a 'Challenge' button. Below these buttons, there is a description: 'A #geography #culturalheritage kahoot to introduce the greek island of #Crete.' It also shows '0 favorites', '3 plays', and '44 players'. The quiz creator is identified as 'kateglezou', created 4 days ago. The quiz consists of 10 questions, with the first four visible: Q1: 'Which is the largest and most populous of the Greek islands?', Q2: 'Which was once the centre of the Minoan civilisation (c. 2700-1420 BC)?', Q3: 'Where does the palace of Knossos lie?', and Q4: 'Where is Crete located?'. Each question is accompanied by a small image and a '20 sec' timer. A large blue watermark is overlaid on the page, containing the URL: <https://play.kahoot.it/#/quizId=d289d7c4-57f7-41f7-a780-39803654d617>.

Activity 2

Web Literacy Bingo

Web literacy bingo allows us to explore a web literacy competency of our choice with a group of learners.

<https://thimbleprojects.org/chadsansing/125881/offline-icebreakers/session05-web-literacy-bingo.html#overview>

Web Literacy Skills

21st Century Skills

Collaboration Communication

Learning Objectives

- Activate and share background knowledge about the web and web literacy topics with a community of learners.

S
T
E
P
S

1. Get a Bingo card from us listing different kinds of behaviours people have that are connected to the web, like, "always uses the same password," or, "has made a webpage before."
2. Find people in the room who have done the things on the Bingo card in order to collect signatures. Collect one signature per square. Mingle and talk with one another until you can each find at least one person who can explain each item, theme, or topic in a bingo square. Anyone who successfully explains an item can only sign another player's bingo once.
3. Call out "Bingo!" when you get a complete row, column, or diagonal stripe for Bingo and get a simple prize from us.
4. Reflect and discuss about your findings.

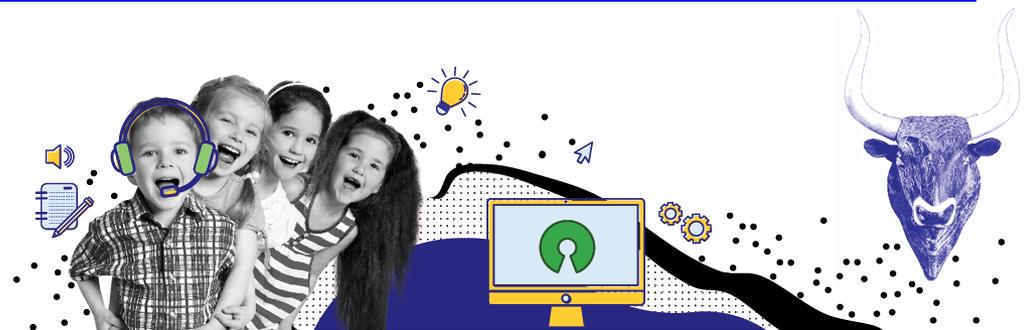

Activity 3

Puzzles for Teaching HTML

Explore web literacy skills with these puzzle-like activities designed to engage participants with offline learning about the web.

<https://thimbleprojects.org/chadsansing/125881/offline-icebreakers/session03-puzzles-for-teaching-html.html#overview>

Web Literacy Skills

21st Century Skills

Collaboration Communication Problem Solving

Learning Objectives

- Learn how HTML tags function.
- Explore tags and website components.
- Explore the markup of text as a component of site architecture and the Web Literacy Map.
- Solve an HTML puzzle dealing with search syntax.

1. Get an HTML tag card from us.
2. Pair up according to who has the open and closing card for each tag.
3. Find pairs with different tag cards and make a team.
4. Move into rows that represent the basic structure of a webpage while trying to stand in the rows in which their tags belong.
5. Create tags for objects in the room and post them around the objects they describe. For example, two learners might put these tags, `<door>` and `</door>` around a door in your learning space.
6. Reflect on your learning.

Thank you for your participation!
